

Print Competition 2008

1. Each student will submit two photographs to be judged and displayed at the competition.

Requirements for prints are as follows:

a. Each print is to be mounted on an appropriate photographic mounting material, measuring 16"x20."

b. The total thickness of the finished piece may be no thinner than 1/8" inch and no thicker than 3/16" inch.

c. Prints may be no smaller than 80 square inches (e.g., an 8"x10" is 80 square inches) or as large as 16"x20." All prints, however, must be mounted to a finished size of 16"x20".

d. Prints may be matted or not as the maker chooses, but overall presentation will be a factor in judging.

e. All prints must be identified by a label placed on the back with the following information: maker's name, instructor's name, school name and address, and high school or college/postsecondary designation. This information should be printed in large, clear, legible writing and affixed to the back of the print, near the center of the top edge.

2. Digital camera, with memory device (you will have to transfer files between camera and computer).
